## Electronic Product Environmental Assessment Tool

Over their lifetime, EPEAT devices purchased in Canada in 2011 will avoid\*:

GHG emissions equal to  
removing **69,358 CARS**  
from the road for 1 year

Toxic materials disposal  
equal to the weight of  
**18 ELEPHANTS**

Using enough electricity to power  
**41,035 homes** for 1 year

### EPEAT products:

- reduce use of hazardous materials
- maximize reuse and recycling
- are more energy efficient
- protect the environment during manufacturing
- minimize packaging
