

EcoHack 2026

Help Students Design Sustainable Solutions

Date and Time: Saturday March 7th, 2026 (8:00am – 4:30pm)

Location: Collider Saskatoon

Audience: Engaged, bright, and passionate USask students from various disciplines such as environmental studies, engineering, technology, business, etc. Professionals from relevant fields are also invited to attend.

Benefits of Partnership

- ✓ **Display your commitment to the environment and a sustainable future** – students look to industry, commercial sectors, and institutions for community and social responsibility. Students, professionals, and media will see your organization's alignment with sustainability and the 17 UN Sustainable Development Goals.
- ✓ **Network with the University's most creative and innovative students** - participate as judges or audience members to engage with students at a closing ceremony and networking mixer early March.
- ✓ **Support Local Innovation** - all donations go towards subsidizing student participation.

What We Offer

Support students towards enhancing their technical, problem-solving, and creativity skills. Your partnership showcases a commitment to Saskatchewan's innovative and sustainable future.

Invest in a sustainable future

Find **solutions** to our community's challenges

Promote what matters

What We Need

We are in search of 4-6 community organizations that have 1-3 problems that could be solved by students over two days of intensive problem solving and design thinking experiences. If you have a problem to pitch, we'd like to hear it!
