

“IS OUR RECYCLING GOING IN THE TRASH?”

The U of S is home to a wide variety of buildings, each with their own specific needs and requirements. This means that our caretakers must often get creative in how they outfit their carts and pick up waste. Rest assured that regardless of the limitations they face, our caretakers are all trained on how to properly sort and manage recycling at the university.

BUILDINGS MIGHT DIFFER IN NEEDS, BUT ALL U OF S CARETAKERS ARE WELL-TRAINED IN MANAGING RECYCLING ON CAMPUS
